Certifications | Internships

Geekster | Geekster Coding Bootcamp

- Mastered over 150 JS/Coding questions on the Geekster platform, demonstrating my strong problem-solving skills and proficiency in JavaScript.
- Engaged actively in various coding contests and practice tests, continuously challenging myself and honing my coding abilities.
- Developed expertise in multiple technical stacks, encompassing JavaScript, React.js, Bootstrap, and Java.
 These skills allow me to tackle diverse projects and contribute effectively to software development.

Projects

Pizza Ordering Website [Github Link] [Live Link]

- Developed a Pizza Ordering Website featuring a captivating home page with dynamically appearing product photos upon scrolling, providing users with options to add to cart or quickly view product details upon hovering, and showcasing an order form where users can input details and receive a thank-you animation upon placing an order.
- Key Features: The implementation of the Pizza Ordering Website incorporated React concepts like hooks, state, props, React Router DOM, and Redux for efficient state management, data flow, component communication, routing, and global state management.
- Tech Stack: React.JS, JavaScript, HTML and CSS

Recipe Search App [Github Link] [Live Link]

- Developed a Recipe Search App with a search page that allows users to find related recipes based on their favourite dish, enabling the selection of recipes from photos and displaying detailed recipe information with a scroll-triggered "View Recipe" button that opens a corresponding YouTube video.
- Key Features: Implemented data retrieval from Free Meal API and utilized the fetched data to sort dish names, displaying the sorted names to the user, for a seamless recipe search experience.
- Tech Stack: JavaScript, HTML and CSS

Skills

Technical Skill: HTML,CSS,JavaScript,Java,SQL

• Frameworks / Libraries : React JS, Bootstrap

● Tools & Technologies : Git, VS code

Education

Year	Degree/Examination	Institution/ Board	CGPA
2022	мса	Utkal University Vanivihar,BBSR	8.2 CGPA
2019	B.Sc in Computer Science	Rajendra Autonomous College ,Balangir	7.5 CGPA
2015	12th	Padampur Public School	6.3 CGPA
2013	10th	Padampur Public School	8.2 CGPA

Achievements and Co-Curricular Activities

- Successfully completed over 130 JavaScript coding challenges on FreeCodeCamp, showcasing a high level of proficiency in the language.
- Earned certification in Responsive Web Design through FreeCodeCamp, validating skills in creating responsive and visually appealing web designs.
- Achieved 3 stars on HackerRank in the problem-solving assessment, demonstrating strong problem-solving abilities and algorithmic thinking.
- Served as an Event Coordinator for a tech event organised by Rajendra University for Advanced Studies & Research College, showcasing leadership and organisational skills.
- Actively participated in social services such as Red Cross and Rotary Health Club, contributing to community welfare and making a positive impact.
- Volunteered for the University Sports Council and played a role in organising national seminars, exhibiting dedication and teamwork in event management.
